

Additionally, in our letter to you dated August 2, 2002, we requested a report of a current Functional Capacity Evaluation by a certified disability examiner, preferably the same examiner who evaluated you on March 6, 2001, (Preston B. Fitzgerald, Sr., M.D.). This evaluation should also include review by the examiner of your March 6, 2001, Functional Capacity Evaluation. To date, we have not received a copy of a current Functional Capacity Evaluation from you.

The above psychiatric and functional work capacity information is necessary to determine your eligibility for airman medical certification.

When you have completed the above evaluations, please have your psychiatrist and certified disability examiner forward their reports to:

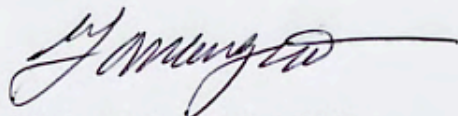

Federal Aviation Administration
Office of Aerospace Medicine, AAM-200
